The sponsoring agency shall, based on the objections and suggestions, if any, received, prepare and submit a report to the Board within such period, as may be prescribed in the regulations.

17. Detailed Project study and Project structuring The Board, on receipt of the report from the sponsoring agency under section 16, shall consider in consultation with the administrative department and after causing the detailed Project study, if it considers necessary, finalise the scope and structure of the Project, either in its original form or with such modification, as it deems fit, also taking into account, the following aspects, namely:-

(a) whether the Project needs any public financial support, and if so, the appropriate form of such support;

(b) the tender criteria or variables relevant for evaluation of the tender;
and

(c) the appropriate concession agreement or a combination thereof, from out of those listed in Schedule II.

18. Procuring entity for Projects (1) Every public agency designated by the Board to implement a Project shall be a procuring entity under the Tender Act(Tamil Nadu Act 43 of 1998):

Provided that the Board may, for any class of Project as may be prescribed in the rules, be the procuring entity under the Tender Act.

(2) No procurement under this Act shall be made by the procuring entity except by tender, following the provisions contained in the Tender Act.

(3) The tender documents shall be in the form and manner as may be prescribed in the regulations:

Provided that for any class of Project as may be prescribed in the regulations, the procuring entity shall submit the tender documents for prior approval of the Board.

(4) The procuring entity shall, in respect of Projects identified by the Board, intimate the name and address of the tenderer whose tender has been accepted, to the Board and shall also obtain its approval on the concession agreement to be entered into with such tenderer.

19. Appointment of Project Manager and Experts. (1) The Board may, if it considers necessary, shall direct the sponsoring agency to appoint a person, who has knowledge and experience in the working of public-private partnership modes and processes, for such period as may be prescribed in the regulations, as Project Manager for a public-private partnership Project. The Project Manager, so appointed shall be responsible for the management and tendering of the Project.

(2) A public-private partnership project for which a Project Manager is appointed, the sponsoring agency shall, make available the services of the officers serving in that agency who possess expertise in the fields of risk management, contingency planning, quality assurance and performance management, public sector accounting and financial management, to assist the Project Manager:

Provided that, if expert in a field is not available within the sponsoring agency, the agency may engage the services of a practicing consultant.

20. Project Management Facility The Government may, by notification, constitute an agency with such number of members, with such

qualification, as may be prescribed in the regulations to be called the Project Management Facility for the management and supervision of any Project. The Project Management Facility shall exercise such powers and perform such functions, as may be prescribed in the regulations.

21. Monitoring of Project Implementation (1) The Board shall monitor the implementation of all Projects including the enforcement of concession agreements.

(2) The Board may, for the said purpose,-

(a) require the submission of periodical or special reports from the sponsoring agency, in such form and manner, as may be prescribed in the regulations;

(b) give directions to the sponsoring agency to maintain project documentation in such form and manner, as may be prescribed in the regulations; and

(c) give such other directions to the sponsoring agency as it deems fit.

(3) The Board may make recommendations to the Government for corrective actions where projects appear to be failing to achieve their objectives.

22. Infrastructure cess, user charges and fees. (1) The Government may levy infrastructure cess at such rates and for such period, as may be prescribed in the rules.

(2) The Board may levy user charges on the users of the infrastructure facility and fees for the services rendered, at such rates, as may be prescribed in the rules.

23. Abuser charge The Board may levy abuser charge at such rate, as may be prescribed in the rules, on any concessionaire for abuse of any right accorded in the concession agreement:

Provided that no such abuser charge shall be levied unless the concessionaire is given a reasonable opportunity of showing cause against such levy.

SCHEDULE – II.

[See section 17]

NATURE OF CONCESSION AGREEMENTS.

1. Investment or Financing related Agreements.

(i) **Build-Operate-and-Transfer (BOT)** – A contractual arrangement whereby the concessionaire undertakes the construction, including financing, of a given infrastructure facility, and the operation and maintenance thereof. The concessionaire operates the facility over a fixed term during which they are allowed to charge the users appropriate tolls, fees, rentals and charges as incorporated in the contract to enable the recovery of investment in the Project. The concessionaire transfers the facility to the Government at the end of the fixed term that shall be specified in the Concession agreement.

(ii) **Build-Own-and-Operate (BOO)** – A contractual arrangement whereby the concessionaire is authorized to finance, construct, own, operate and maintain an infrastructure or development facility from which the concessionaire is allowed to recover the total investment by collecting user levies from facility users. The ownership of the land will be vested with the Government. Under this mode, the concessionaire owns the assets of the facility and may choose to assign its operation and maintenance to a facility operator. The transfer of the facility to the Government is not envisaged in this structure; however, the Government may terminate its obligations after the specified time period.

(iii) Build-Own-Operate-Transfer (BOOT) – A contractual arrangement whereby the concessionaire is authorised to finance, construct, maintain and operate a Project and whereby such Project is to vest in the concessionaire for a specified period. During the operation period, the concessionaire will be permitted to charge user levies specified in the Concession agreement, to recover the investment made in the Project. The concessionaire is liable to transfer the Project to the Government after the expiry of the specified period of operation.

(iv) Build-Transfer-and-Operate (BTO) – A contractual arrangement whereby the Government contracts out an infrastructure facility to the concessionaire to construct the facility on a turn-key basis, assuming cost overruns, delays and specified performance risks. Once the facility is commissioned satisfactorily, the concessionaire is given the right to operate the facility and collect user levies specified in the Concession agreement. The title of the facilities always vests with the Government in this arrangement.

(v) Design-Build-Finance-Operate-Transfer (DBFOT) - A contractual arrangement whereby the concessionaire is bestowed with the responsibility of designing, building, financing and operating the facility before transferring the Project to the Government after the expiry of the specified period. The concessionaire operates the facility over a fixed term during which they are allowed to charge the users appropriate tolls, fees, rentals and charges as incorporated in the contract to enable the recovery of investment in the Project.

2. Operations and Maintenance related Agreements.

(i) Management Agreement – A contractual arrangement whereby the Government entrusts the operation and management of a Project to the concessionaire for the period specified in the agreement on payment of specified consideration. In such agreement, the Government may charge the user levies and collect the same either by itself or entrust the collection for consideration to any concessionaire who shall after collecting the user levies, pay the same to the Government.

(ii) Lease Management Agreement – A contractual arrangement whereby the Government leases a Project owned by it to the concessionaire which is permitted to operate and maintain the Project for the period specified in the contract. The concessionaire is allowed to charge the users appropriate fees, rentals and charges as specified in the agreement to enable the recovery of investment in the Project.

(iii) Build-Lease-and-Transfer (BLT) – A contractual arrangement whereby the concessionaire undertakes to finance and construct the Project and on its completion hands it over to the Government. The Government then gives the facility to the same operator on a lease arrangement for a fixed period, after which ownership of the facility is automatically transferred to the Government.

(iv) Rehabilitate-Operate-and-Transfer (ROT) – A contractual arrangement whereby an existing facility is handed over to the concessionaire to invest, refurbish, operate and maintain for a period, at the expiry of which the facility is returned to the Government. The concessionaire operates the facility over a fixed term during which they are allowed to charge the users appropriate fees, rentals and charges as specified in the contract to enable the recovery of investment in the Project.

(v) Rehabilitate-Own-and-Operate (ROO) – A contractual arrangement whereby an existing facility is handed over to the concessionaire to invest, refurbish, operate and maintain the development facility from which the concessionaire is allowed to recover the total investment by collecting user levies from facility users. The ownership of the land shall be vested with the Government. The transfer of the facility to the Government is not envisaged in this arrangement; however, the Government may terminate its obligations after a specified time period.
